WHAT WE DO

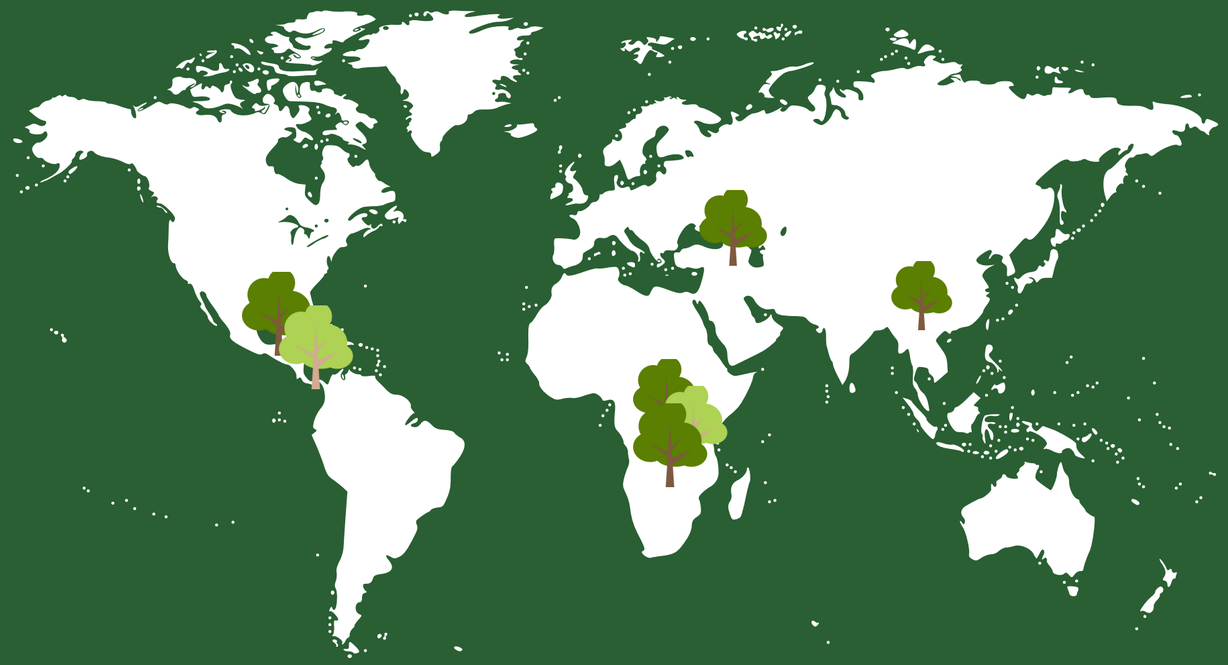
Plant trees with communities

Improve people's quality of life

Support education of the youth

Help restore worldwide biodiversity

WHERE WE DO IT



Our goal is to keep expanding by planting 10 million trees in the next 3 years

1TREELLION.org

WHAT SETS UP APART

1treellion Global Funds is a non-profit 501(c) committed to fund tree planting, whilst acting with the communities on the terrain to improve their life.

We go beyond biodiversity restoration and carbon offsetting by putting communities' wellbeing at the core of our goals.

HOW WE COULD WORK TOGETHER

1Treellion is 100% volunteer-based at the moment.
Our priorities are the trees and the community, and this is where the money goes.
90% of the funds raised go to tree plantings; 10% is fees paid to our fiscal sponsor GVNG.

GOAL

Raise $11,000,000 to plant 10 million trees

All of the current projects were test projects to confirm success rate and community engagements.
Our goal is to expand the planting in those areas.

In addition, 1treellion constantly receives requests of fundings from communities. To be able to support the planting of 10 million trees, we are seeking to raise $11,000,000.

OUR CURRENT PROJECTS

TANZANIA'S COMMUNITY PROJECT

We have done a successful small-scale project back in February 2021, planting 2,500 trees on this site. The project involved 100 people involved in tree nursery, loading, planting. To date, 95% of planted trees have survived.

ARMENIA'S BIODIVERSITY RESTORATION

Working in the crossways of habitat restoration, wildlife protection, and sustainable community development, we are committed to advocating respect and responsibility for the natural wealth and cultural heritage of Armenia.
